Bubble.io   API Integration   Javascript   React JS   React Native   Angular   PHP   Laravel   MySQL   JIRA   Figma   Github   HTML/CSS

PROJECTS

Nectargo (Bubble.io) (11/2021 - Present)
- NectarGo is a digital tool that allows producers and merchants to work better and directly for a more local and sustainable food. It is an application that brings together a community of local partners, reinforced by a support team close to you.

BirdTips (Bubble.io) (04/2021 - 11/2021)
- Bird is a platform dedicated to the vacation rental community. These rentals are associated with good public or private plans (restaurant, outing, museum, unusual places). It allows everyone to experience unique and unforgettable stays.

PublishBlog (Bubble.io) (02/2022 - Present)
- Publish blogpost is an open platform where readers find dynamic thinking, and where expert and undiscovered voices can share their writing on any topic. It provides good reading material to readers and an accelerated writing income for writers.

PronosDirect (React Native) (11/2018 - 09/2019)
- PronosDirect is a mobile application on horse racing and football predictions. It provides free predictions and an analysis with its reliability. Available on PlayStore & App Store.
